**Allowable subject matter**

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art neither discloses nor suggests an organic EL pixel circuit comprising:

- the discharge transistor discharges charges that are accumulated on a node between the organic EL element and the driving transistor if the discharge transistor is turned on such as required by claims 1, 3, 5, 10;
- the organic EL pixels are arranged in a matrix and the pixels in a row direction are selected by a first gate line, and the discharge transistor is driven by a second gate line which is selected at a timing prior to the selection of the first gate line at the row of the EL element to which the discharge transistor is connected, to discharge accumulated in the capacitor of the organic EL element such as required by claim 2;
- the organic EL pixels are arranged in a matrix and each of the pixels emits light of a color which is predetermined for each pixel, and a discharge transistor for a pixel which emits light of a color with a low emission efficiency is provided within a pixel which emits light of a color with a higher emission efficiency such as required by claims 4 and 8;

Art Unit: 2821

- the control transistor is driven simultaneously with the discharge transistor to turn the drive transistor off at the time of driving the discharge transistor off such as required by claim 6;
- the control transistor is driven prior to the discharge transistor to turn the drive transistor off prior to driving of the discharge transistor such as required by claim 6;
- a plurality of discharge transistors in the organic EL pixels located at rows selected by a first gate line are driven by a second gate line which is selected before the selection of the first gate line such as required by claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
